Argan Oil  
the beauty of **one 'n only**®

**One 'n Only**® brings its pure Moroccan argan oil to a collection of haircare products and styling tools. Argan Heat™ uses innovative technology to infuse argan oil right into the ceramic surfaces of dryers and irons. These tools join a full line of haircare products dedicated to creating smooth, shiny, frizz-free hair and giving stylists the tools they need in their ongoing quest for extraordinary hair!

One of the world's rarest oils, argan oil is derived from the Moroccan argan tree. Known for its moisturizing properties, it helps to revive and nourish dry and damaged hair.

Argan oil is an all-natural, certified organic, chemical-free beauty marvel. Produced from the argan tree in the deserts of Morocco, argan oil has been used by Moroccan women for centuries for its cosmetic benefits. Commonly referred to as "liquid gold" or "the gold of Morocco," argan oil is a rich source of vitamin E and essential fatty acids.

## Argan Oil Treatment

3.4 fl. oz. – AOIL3

Also available: 2 fl. oz. - AOIL2, 8 fl. oz. - AOIL8

One 'n Only® Argan Oil Treatment is a non-greasy, alcohol-free formula that is instantly absorbed into the hair, creating brilliant shine without leaving an oily residue. Smoothes cuticle for silky, conditioned and healthy-looking hair. This precious oil helps protect against damage caused by the environment, chemicals, or excessive heat from stylers, and provides long-term conditioning while reducing frizz, split ends and breakage. Ideal for all hair types, One 'n Only® Argan Oil Treatment is a premium styling, finishing, smoothing and conditioning product that gives consistently silky smooth results.

### STYLING AND FINISHING

Distribute a small amount of oil evenly through clean, towel-dried hair; use heat to style. Distribute a small amount through dry hair to moisturize, reduce frizz and add instant shine.

### SMOOTHING AND CONDITIONING

Smoothes the hair instantly, leaving it revitalized with a healthy look and feel. Protects, revives and detangles natural hair, wigs and extensions.

### COLOR/CHEMICAL PROCESS

Prior to treatment, massage a small amount of oil evenly into hair. Do not rinse. Then mix approximately ¼ teaspoon of oil with the color, highlighting, straightening or relaxer solution and process as usual. One 'n Only® Argan Oil Treatment increases absorption of product into hair for enhanced shine and depth of color.

## Argan Oil Moisture Repair Shampoo

12 fl. oz. – AOILS12

Also available: 1 Liter - AOILSLTR

Repair damage caused by chemicals, excessive heat from styling and environmental factors with this gentle cleansing formula that hydrates and restores moisture levels. Free of sulfates, phosphates and parabens. Safe for chemically and color-treated hair. Adds volume and improves shine and manageability.

## Argan Oil Moisture Repair Conditioner

12 fl. oz. – AOILC12

Also available: 1 Liter - AOILCLTR

Reconstruct, detangle and replenish moisture levels with this daily conditioner. Revive dull, weak, damaged hair while protecting and repairing split ends. Free of sulfates, phosphates and parabens. Safe for chemically and color-treated hair. Helps condition and smooth the cuticle, improving shine and manageability.

## Argan Oil Restorative Mask

8.5 oz. – AOILRM8

This intense treatment penetrates the cuticle to help reconstruct, rebuild strength and restore elasticity. It hydrates and moisturizes

hair from within, improving texture and shine. Helps reverse damage caused by environmental factors, heat stress and chemical/color treatments.

## Argan Oil Hydrating Mask

8.3 oz. – AOILHM8

This creamy, rich conditioning treatment revitalizes dry, damaged hair, restoring natural moisture balance and elasticity for shinier, more manageable hair. Helps restructure hair's protective film to shield from damage, leaving hair with an overall healthy look and feel.

## Argan Oil Styling Cream

10 fl. oz. – AOILSC10

This non-greasy, ultra-light, versatile leave-in styling cream eliminates frizz while it conditions and hydrates. On its own, it adds shine, definition and texture, and provides flexible hold for any style. Combined with One 'n Only® Argan Oil Treatment, it can be used on thick, unmanageable, curly hair to create a straight and smooth look with incredible texture.

## Argan Oil Curl Cream

10 fl. oz. – AOILCC10

For added texture, hold and shine, this leave-in conditioning cream enhances curly hair, leaving curls bouncier and more defined. Conditioning agents allow instant hydration without sticky residue. It also provides color protection. To create curls with more volume, apply to damp hair and use a diffuser.

## Argan Oil Hairspray

10 oz. – AOILHS10-55

This versatile hair spray provides strong hold, control and instant shine while providing texture and added body when used on wet hair as a styling tool. It conditions and nourishes the hair adding intense shine, is humidity resistant and provides thermal protection. It can also be used as a shaping spray for natural, long-lasting, touchable support.

## Argan Oil Spray Treatment

6 oz. - AOILST6

With a lightweight, alcohol-free, non-greasy formula that provides instant shine without leaving an oily residue, this spray helps seal in moisture, conditions and smoothes the cuticle to help eliminate frizz and repair dry, damaged hair. It provides thermal protection while reducing drying time, and protects hair color as well.

## Argan Oil Mousse

8.8 oz. - AOILM8

A light, foamy styling mousse with firm hold in a highly concentrated formula for maximum volume, body and control. Argan Oil Mousse delivers highly reflective shine and smoothness to the cuticle while it controls frizz and leaves hair smooth and healthy. Ideal for blow-drying and creating curl separation, it also provides thermal protection.

## Argan Oil Shine Spray

4 oz. - AOILSS4

Add body and shine without buildup with this micro-fine aerosol spray that provides instant thermal protection. Perfect for anyone who uses heat styling appliances or has received a temporary or permanent straightening service, it protects and conditions, leaving hair smooth, straight, sleek and shiny.

# Argan Heat™

*Ceramic Styling Tools*

The Argan Heat collection of styling tools is the industry's first line of appliances to incorporate the miraculous benefits of argan oil. Using an advanced new process, the oil is transformed into powder, blended with ceramic and infused into the plates, barrels and grilles of these innovative tools. Straightening and curling irons in two sizes, plus one dryer, provide consistent heat and styling flexibility. The results are incredible shine, silky smoothness, and healthy-looking hair with reduced frizz, split ends and breakage.

**Argan Heat™**  
Ceramic Styling Tools

**Argan Ceramic Dryer**  
**ONOMH6705**

This 1875-watt AC dryer fights frizz and delivers shine using ionic technology and a ceramic grille infused with Moroccan argan oil. 6 heat/speed settings plus cold shot and an 8' power cord put you in control.

**Argan Ceramic Curling Iron**  
**ONOMH100S (1")/ONOMH125S (1¼")**

With 30 heat settings the ceramic curling iron heats up quickly to 400°F. A ceramic barrel infused with Moroccan argan oil protects as it curls. Power cord is 8' long for easy styling.

**Argan Ceramic Straightening Iron**  
**ONOMH9557 (1")/ONOMH9559 (1½")**

Infused with Moroccan argan oil, this ceramic straightener delivers instant, consistent heat and recovery, and heats up to 450°F with 30 heat settings for any type of hair. An 8' power cord leaves you free to style.
